C/C++ Offer

April 1995

Acorn C/C++ provides a full set of programming tools for developing applications to run on Acorn's 32-bit RISC computers. It has been designed to help you develop RISC OS 3 applications to the highest possible standards and comprises the C compiler, C++ compiler, assembler, set of programming support tools and a toolbox. These, together with the resource editor (ResEd) and tester (ResTest), combine to make it simple to create a style-guide-compliant user interface for your software. This is a major innovation for the development of RISC OS applications. To give you a chance to see how it works in practice, the enclosed disc has a special working version of ResEd and ResTest.

Special Clan Offer

To help Clan members obtain this major step forward in RISC OS programming we are offering the new package for only £149 plus VAT directly to Clan members - a massive 30% discount from the retail price. Current owners of Desktop C or Desktop assembler can obtain the the new package at an even better upgrade price of just £99 plus VAT. If you want to claim the upgrade price you must send in the original program discs together with your order.

	New package	Upgrade
RRP inc VAT	£249.95	£199.95
Clan Price UK inc p&p inc VAT	£175.08	£116.33
Clan Price EU countries inc p&p inc VAT	£193.12	£134.37
Clan Price other countries inc p&p no VAT	£177.56	£126.85

To obtain your copy at the reduced prices, return the form below to:
Acorn Direct, 13 Denington Road, Wellingborough, Northants NN8 2RL.
This offer expires on 1 September 1995 and all applications must be received by that date.
