Sounding Off
Competition

Acorn

Since the inception of RISC OS, it has been possible to customise your beep. However, as RISC OS has evolved, this area - the humble beep - has remained untouched! We want you to create a beep that will show a new generation of RISC Technology. It can be any type of original sound, from your voice or a musical instrument to something completely abstract The competition winner will have his or her beep incorporated into a new version of RISC OS, and win a handy 1MB Pocket Book 11, with an A-Link included, to help in the quest for capturing the ultimate in sounds.

To enter, please either send your entries on a disc to: James Abela, Acorn Computer Group plc. Acorn House, 645 Newmarket Road, CAMBRIDGE, CB5 8PB, or E-MAIL clan@acorn.co.uk

Rules of 'Sounding Off' Competition

Beeps should be no longer than five seconds. The Beep must be entirely entrants own work and may not be sourced from any copyright material (e.g. Television recordings). The Beep must be submitted in a format readable in !SoundCon.

Closing date for entries is 27 March 1997. No responsibility can be accepted for entries, lost, stolen, not delivered or damaged in transit. Entries remain the property of Acorn Computer Group plc. No entries can be returned.

Judging will take place on 1 April 1997. The panel will consist of quorum of informed individuals under the chair of the Clan Chieftain. The winner will be notified by post as soon as possible and entries will be placed on the Clan website.
