SALES NEWS Issue 84

19th October 1993

Dear Dealer

TCP/IP Release 2

TCP/IP Release 2 (AES43) has been produced to provide extended support for the increasing number of new network interface cards found in the Acorn community.

There is now a 'one-off price for TCP/IP Release 2, which retails @ £399 ex VAT and has brought it in line with the the price of Level 4 fileserver which is also £399 on a site licence basis.

This product replaces all previous versions of TCP/IP.

For customers wishing to purchase an upgrade from Release 1 to Release 2 (AES44), may do so via Acorn Direct, providing proof of purchase of previous release and a cheque for £59.95 inc VAT. For further details please contact Tel 0933 279300.

Midi Upgrade Podule

The above module, AKA15, is an upgrade to the I/O Podule giving it MIDI. The current recommended route for MIDI is the AKA16 which retails @ £69.

Please note that outstanding orders for AKA15 are hereby cancelled as we are not able to supply this product. Should you wish to order this product, please re-submit your orders using product code AKA16 which is currently in stock.

PC Cards 386 and 486

With reference to our recent press release, please be aware that the above products, AGA31 and AGA32 have been reduced in price . Please refer to the Dealer Price List - October issue.

RISC OS 3 Upgrade

The introductory offer of the above product, ALA31 expires on 31st October 1993, therefore the original RRP will be introduced @ £89 on 1st November 1993. Outstanding orders will be re-priced accordingly. Please ensure you place your orders now to take advantage of the promotional price.

Yours faithfully

Tracy Bottomley
Sales Desk Supervisor
